

Job Title: Cohort Leads (20)

Project: Electrifying the Future, Goodman School of Mines, Laurentian University in partnership with MIRARCO Mining

The "Electrifying the Future Project" is a bilingual (English/French) project that aims to bring awareness to students about post-secondary programs that lead to jobs and services across the electric vehicle supply chain from mineral exploration all the way to the automotive and mobility industry. In its first phase, a rigorous marketing campaign will help to change perspectives and bring awareness to a variety of career options in this industry.

Two weeks of free summer day camps from July 17-21 and July 31-August 4th, 2023 will be offered for students in grades 6-9. STEM and non-STEM lessons and activities will be delivered at three locations (Laurentian University, Cambrian College and Collège Boreal), along with a one-day field trip to 3 local businesses (Epiroc, Technica Mining, and Laurentian Chrysler).

Job Description:

You and 3 other cohort leads will participate in the weeklong summer camps alongside camp participants and provide assistance to campers to complete the lessons and activities, which will be led by instructors. Training and resources will be provided to help you successfully complete your duties.

Duration: 4 weeks beginning July 4th, 2023

Work Week:

Camp Preparation Weeks (2) - 6 hrs/day - weeks of July 4th and 10th - MON-FRI :
9:00AM-4:00PM

Camp weeks (2) - 9 hrs/day - weeks of July 17th & July 31st - MON-FRI : 8:00AM - 5:00PM

Wage: \$18/hr
